

"Spotlight" #2 is on Nicole Fischer our new Math teacher at WCJSHS. Here is little bit about Nicole.

I decided to go into teaching so I could give other kids opportunities to reach their goals. Why I specifically chose to become a math teacher is beyond me. I guess I just can't say no to a good challenge. Growing up in this school system, I was raised by a lot of teachers that really made a difference in my life and I wanted to do that for other kids.

My husband and I are both natives of Wichita County. We moved back to Leoti approximately a year ago and almost immediately found out we were going to have a baby. I was fortunate enough to finish student teaching in December before having our sweet baby boy, Gunnar, in February. It has been wonderful being welcomed back home and I am very grateful to be raising a family in Jordan and I's hometown. My hobbies include spending time with my family, being outdoors, and trying to convince my husband to do the dishes for me (that last one isn't really a hobby but I sure do spend a lot of time on it). I am beyond excited for this school year and can't wait to get started!
